## CAREER SUMMARY

---

I am a dedicated Front-End Developer with a passion for creating exceptional user experiences. With over 3 years of experience, I have prolific experience in HTML, CSS, Tailwind and JavaScript, allowing me to craft seamless and efficient web interfaces. My commitment to best practices and coding conventions ensures the delivery of error-free, scalable, and innovative software solutions. My excellent English communication skills ensure effective collaboration and conveyance of ideas in a global work setting. With a background in Engineering, I bring a strong educational foundation to complement my hands-on expertise. I am eager to learn and contribute my expertise to a forward-thinking organization that values innovation, teamwork, and continuous learning.

## EDUCATION

---

**Elizade University, Ilara-Mokin**  
BEng Computer Engineering

**Ondo, Nigeria**  
July, 2026

**Federal University of Technology**  
A levels in engineering

**Akure, Nigeria**  
September, 2019

## WORK EXPERIENCE

---

**Software Developer Intern**  
Gateway, Nigeria

Lagos, Nigeria  
May 2023 - August 2023

- When I got to gateway, they had a problem with registered users not being active, during a strategy call with the CTO we decided to make a full redesign of the website. I wrote more CSS code than ever, I enjoyed the process. This redesign made the website more user friendly and the user experience got better which in turn led to an increase of active users.

## PROJECTS

---

- Developed a web application landing page for a web 3 company that deals with NFT, they wanted to embed the company tweets onto the website, this was new and challenging but after seeking for help from my tech community and watching YouTube tutorials I could work on it. This project was built with react and Tailwind css - [godzinu.com](https://godzinu.com)
- Finding an overall details about a movie can be tasking so I created a web application that fetches data from a database and allow users search for movies and TV shows. They get every detail about movies, TV shows and its cast. This project was built with Html, Css and JavaScript - [Flixx app](#)
- I participated in a hackathon to create a landing page, registration and contact page that sends the data to a backend server. This project was built with Tailwind css, Html and asynchronous JavaScript - [GetLinked](#)

- I am collaborating with four of my course mates to build an e-commerce website that connects student vendors with buyers in my school campus. Finding the right vendor/customer is a problem a lot of students face so we are building this web app as a solution to that - [Campusy](#)

---

## SKILLS

**Technical Skills:** HTML, CSS, JavaScript, SCSS, Git, Responsive Design, Debugging and Troubleshooting, and version control, web development.

**Soft Skills:** Clear communication skills, attention to Detail, advanced analytical skills, adaptability, team player, learning Mindset, Passion for growth.

**Fun Activities:** Monopoly, Skiing, Reading, Swimming, Lover of Fiction novels, Nature walking, jogging.

---

## AWARDS AND VOLUNTEERISM

<b>Founding member</b> GDSC community, Elizade	October, 2022
<b>First Place Winner</b> GDSC coding solution challenge	July, 2023
<b>Volunteer</b> Just project beginner training	May 2023 - July 2023
<b>Volunteer</b> War against gender violence	Feb 2020 - Dec 2021

---

## TRAINING AND CERTIFICATIONS

- [Front-end Development Certificate | Ingressive for good | 2022](#)
- [JavaScript Frameworks Proficiency | Google developer community | 2023](#)

---

## REFEREE

Available on request.
