CAREER SUMMARY

I help startup founders and business owner build high performing website their users love. With 3 years of experience in **React**, **Redux**, **Next.js**, **Typescript**, **HTML**, **CSS**, **JavaScript**, **Tailwind CSS**, and **Git**, I have a proven track record of translating business requirement into functional code. With an advanced UI/UX knowledge, and a solid experience in backend-frontend integration, I create robust frontend systems.

EDUCATION

Elizade University, Ilara-Mokin
BEng Computer Engineering

Nigeria
Nov 2022 -July, 2026

Federal University of Technology Akure
A levels in engineering

Nigeria
Sept, 2020 -Oct 2021

WORK EXPERIENCE

Frontend Engineer
ATB Tech

Lagos, Nigeria
March 2024 - October 2024

- Reduced time taken for job upload by 90% after I implemented three APIs to handle bulk upload of jobs via Excel files using express.js and typescript and React.js
- Mentored junior team members and participated in strategic discussions.
- Facilitated 50 new sign up in a week by redesigning the recruitment module for better user experience.

Frontend Developer
Open Desk

Lagos, Nigeria
February 2025 - Present

- Translated UI/UX design wireframes into code and produced engaging web applications
- Developed an admin and user facing pension software.
- Maintained responsive, high-performance web applications using modern front-end technologies.

PROJECTS

- Developed a change management software, *CrediCaf*, to help a business owner track customer credits and finances. Leveraged **React Query** for efficient data fetching and synchronization, **React + styled components** for building an interactive web interface, and **Supabase** for backend services. Implemented features such as user authentication, role management, server-side pagination, search functionality, and filtering. [CrediCaf](#)

- Engineered a web application, Flixx, to provide vital information on movies and series. Utilized the TMDB API for data fetching, I streamlined the user experience by fetching and rendering real time data using RESTFUL API methods and JavaScript(ES6+). Achieved active engagement, with over 10 users regularly receiving movie recommendations on [Flixx](#)
- Redesigned and optimized a job search web application, myxalary, using full stack technologies. Translated a figma prototype into an interactive and responsive website using **React + Redux** and **SCSS**, thus giving users a better experience. Created CRUD API with **express.js** and **Node.js**, Implemented data fetching and synchronization on the frontend using **react query** [myxalary](#)
- Developed landing pages for a web development tutor agency using Next.js and typescript. Implemented Next.js app router, server and client components interactions, and server side rendering and generation and server actions. I implemented the design accurately, 50 students registered within the first week of going live [JustProject](#)

SKILLS

Technical Skills: React, Redux, Next.js, Typescript, HTML, CSS, JavaScript, Tailwind, styled-components, zustand, context API, RESTful APIs, mantine UI, Git, SASS.

Soft Skills: Clear communication skills, Problem solving mindset, result oriented, attention to Details, advanced analytical skills, fast learner, collaborator, learning Mindset, Passion for growth.

AWARDS AND VOLUNTEERISM

First Place Winner	July, 2023
GDSC Elizade university coding solution challenge	

Member, GDSC Elizade University.	July, 2023
Organized coding workshops and mentored junior developers.	

TRAINING AND CERTIFICATIONS

- [Frontend development certificate](#) Ingressive for good | 2022
- [JavaScript Frameworks Proficiency](#) Google Developer Community | 2023
- [Modern JavaScript Certificate](#) Traversy Media | 2023

REFEREE

Available on request.
