CAREER SUMMARY

I am a frontend engineer passionate about solving problems through efficient programming. With 3 years' experience in **React**, **Redux**, **Next.js**, **HTML**, **CSS**, **JavaScript**, **Tailwind CSS**, and **Git**, I write programs that solve problems and turn visions into functional, secure, and impactful applications. I have solid experience in connecting frontend interfaces to robust backend servers and the ability to read and implement figma designs accurately.

EDUCATION

Elizade University, Ilara-Mokin
BEng Computer Engineering

Nigeria
Nov 2022 - July, 2026

Federal University of Technology Akure
A levels in engineering

Nigeria
Sept, 2020 - Oct 2021

WORK EXPERIENCE

Software Developer Intern
ATB Tech (Leading company in software development)

Lagos, Nigeria
March 2024 - October 2024

- Developed three APIs to handle bulk upload of jobs, categories, and category competencies via Excel files using express.js and typescript. This new feature eased the process of job uploads, allowing users to create multiple of jobs at once, reducing the time taken for the upload of jobs by 90%.

PROJECTS

- Developed a full-stack change management software, *CrediCaf*, to address the issue of change mismanagement in a school cafeteria. Leveraged **React Query** for efficient data fetching and synchronization, **React + styled components** for building an interactive web interface, and **Supabase** for backend services. Implemented features such as user authentication, role management, server-side pagination, search functionality, and filtering. Successfully onboarded two cafeterias, enabling active change transaction management and reducing mismanagement by 99% [CrediCaf](#)
- Engineered a web application, Flixx, to provide vital information on movies, series, and actors. Utilizing the [TMDB](#) API for data fetching, I streamlined the user experience by delivering real-time movie recommendations and up-to-date information. Implemented interface updates, and robust error handling to ensure seamless functionality. Achieved active engagement, with over 10 users regularly receiving movie recommendations on [Flixx](#)
- Built a job search web application, myxalary, using full stack technologies. Translated a figma prototype into an interactive and responsive website using **React + Redux** and **SCSS**,

thus enabling users search for jobs. Created CRUD API with **express.js** and **Node.js**, Implemented data fetching and synchronization on the frontend using **react query** [myxalary](#)

- Developed a full stack idea sharing application. Crafted the frontend with **Tailwind**, **HTML**, and **JavaScript**, while the backend was powered by **Express.js** and database on **MongoDB**. Achieved a user base with over 15 users actively sharing their ideas on the application. [RandomIdea](#)

SKILLS

Technical Skills: React, Redux, Next.js, HTML, CSS, JavaScript, Tailwind, styled-components, zustand, mantine UI, Git, MongoDB, Express.js, MongoDB.

Soft Skills: Clear communication skills, Problem solving mindset, result oriented, attention to Details, advanced analytical skills, fast learner, collaborator, learning Mindset, Passion for growth.

AWARDS AND VOLUNTEERISM

First Place Winner	July, 2023
GDSC Elizade university coding solution challenge	

Member, GDSC Elizade University.	July, 2023
Organized coding workshops and mentored junior developers.	

TRAINING AND CERTIFICATIONS

- [Frontend development certificate](#) Ingressive for good | 2022
- [JavaScript Frameworks Proficiency](#) Google Developer Community | 2023
- [Modern JavaScript Certificate](#) Traversy Media | 2023

REFEREE

Available on request.
