CAREER SUMMARY

I am a frontend engineer passionate about solving problems through efficient programming. With a solid experience in React, Typescript, HTML, CSS, JavaScript, Tailwind, styled components, Git and an immaculate eye for design, I make an invaluable asset to any software development team. I have an understanding of MongoDB, express.js and the ability to read and implement figma designs accurately.

EDUCATION

Elizade University, Ilara-Mokin
BEng Computer Engineering

Nigeria
Nov 2022 -July, 2026

Federal University of Technology Akure
A levels in engineering

Nigeria
Sept, 2020 -Oct 2021

WORK EXPERIENCE

Software Developer Intern
ATB Tech (Leading company in software development)

Lagos, Nigeria
March 2024 - Present

- Developed three APIs to handle bulk upload of jobs, categories, and category competencies via Excel files using express.js and typescript. This new feature eased the process of job uploads, allowing users to create multiple of jobs at once, reducing the time taken for the upload of jobs by 90%.

PROJECTS

- Engineered a web application, Flixx, to provide vital information on movies, series, and actors. Utilizing the [TMDB](#) API for data fetching, I streamlined the user experience by delivering real-time movie recommendations and up-to-date information. Implemented interface updates, and robust error handling to ensure seamless functionality. Achieved active engagement, with over 10 users regularly receiving movie recommendations on [Flixx](#)
- Developed a Webpack boilerplate, with essential configurations like Babel loader, HTMLWebpackPlugin, and file loader, to expedite project initiation. Authored a comprehensive README file to guide developers on integrating the bundler into their projects. Over 5 developers have cloned the repository to jumpstart their own projects. [Webpack starter](#)
- Built a job search web application, myxalary, using full stack technologies. Translated a figma prototype into a clean and responsive website using React and scss, thus enabling users search for jobs. Created CRUD api with express.js and Implemented data fetching and synchronization on the frontend using react query. [myxalary](#)

- Developed a full stack idea sharing application. Crafted the frontend with Tailwind, HTML, and JavaScript, while the backend was powered by Express.js and database on MongoDB. Achieved a user base with over 15 users actively sharing their ideas on the application. [RandomIdea](#)

SKILLS

Technical Skills: React, Redux TypeScript, HTML, CSS, JavaScript, Tailwind, styled-components, zustand, mantine UI and Git, MongoDB, Express.js, azure.

Soft Skills: Demonstrated clear communication skills and problem-solving abilities during my internship at ATB Tech where I collaborated with a team to develop three APIs.

AWARDS AND VOLUNTEERISM

First Place Winner July, 2023
GDSC Elizade university coding solution challenge

Founding member, GDSC Elizade University. July, 2023
Organized coding workshops and mentored junior developers.

Volunteer May 2023 - July 2023
Volunteered to train newbies the fundamentals of web development

TRAINING AND CERTIFICATIONS

- [Frontend development certificate](#) Ingressive for good | 2022
- [JavaScript Frameworks Proficiency](#) Google Developer Community | 2023
- [Modern JavaScript Certificate](#) Traversy Media | 2023

REFEREE

Available on request.
